

How do I list all of my projects?

Category: FAQ

Use the **groups** command to view a list of the project groups (GIDs) that you belong to. The following example shows that user *zsmith* is a member of the groups a0800, a0907, and e0720.

```
%groups zsmith  
zsmith : a0800 a0907 e0720
```

If you do not know the project names that the GID numbers represent, you can contact the NAS Control Room at (800) 331-8737, (650) 604-4444, or support@nas.nasa.gov.

For more information about groups and GID charges, see [Multiple GIDs and Charging to a Specific GID](#).
